## PRAGUE, CZECHREPUBLIC

Prague has been a political, cultural and economic centre of central Europe complete with a rich history. Founded during the Romanesque and flourishing by the Gothic, Renaissance and Baroque eras, Prague was the capital of the Kingdom of Bohemia and the main residence of several Holy Roman Emperors, most notably of Charles IV (r. 1346-1378). It was an important city to the Habsburg Monarchy and its Austro-Hungarian Empire. The city played major roles in the Bohemian and Protestant Reformation, the Thirty Years' War and in 20th-century history as the capital of Czechoslovakia, during both World Wars and the post-war Communist era.

Prague is classified as a "Alpha -" global city according to GaWC studies and ranked sixth in the Tripadvisor world list of best destinations in 2016. Its rich history makes it a popular tourist destination and as of 2017, the city receives more than 8.5 million international visitors annually. Prague is the fifth most visited European city after London, Paris, Istanbul and Rome.
