

# CALL FOR PAPERS

## ICICM 2026

The 15th International Conference on Information Communication and Management  
(November 11-13, 2026; Jakarta, Indonesia)

### Track 4: Applied Operations Research and Optimization

(Track Chair: Assoc. Prof. Ha-Bang Ban, Hanoi University of Science and Technology (HUST), Vietnam)

**Abstract:** This track focuses on applied operations research and optimization methods for complex prescriptive decision-making problems. It welcomes methodological and application-oriented contributions in mathematical programming, combinatorial optimization, exact and heuristic algorithms, metaheuristics, evolutionary and swarm optimization, multiobjective and multitask optimization, and robust, stochastic, and dynamic optimization. Particular interest is given to learning-augmented and data-driven optimization, where artificial intelligence or machine learning is used to improve modeling, search, parameter control, or solution efficiency rather than as a stand-alone predictive task. Application areas include vehicle routing and transportation, scheduling and timetabling, logistics and supply chain optimization, production and service operations, resource allocation, smart manufacturing, and disaster-response planning. The track aims to connect researchers and practitioners through new models, algorithms, computational studies, and real-world applications, with emphasis on solution quality, efficiency, scalability, and practical impact.

### SUBMISSION METHODS

- Email: [secretary@chairmen.org](mailto:secretary@chairmen.org)
- Electronic submission system:

<https://confsys.icnf.org/submission/icicmorg2026>

- **Submission Deadline: October 5, 2026**

\*Please just choose 1 submission method.

\*Official template: <https://www.icicm.org/your-template-download-link.doc>

\* All papers should be written and presented in English only.

\* Each paper must be at least 8 pages. One registration covers 10 pages, including tables, figures, and references. Additional pages will incur extra charges.

### CONFERENCE PROCEEDINGS

Submitted papers will be peer-reviewed by the technical program committees. The accepted and registered ones will be collected in the **ACM Digital Library**, and submitted for indexing by **El Compindex**, **Scopus**, **IET**, etc.

The proceedings of **ICICM 2016-2024** have been indexed by **ACM Digital Library**, **El Compindex**, and **Scopus**.

👤 Secretary: Ms. Katrina H. Cheney

✉ Email: [secretary@chairmen.org](mailto:secretary@chairmen.org)

☎ Phone: (00) 16193091099 (English Service)

🕒 Office Hours: 10:00 – 18:00 (GMT+8)

### TRACK TOPICS

- Topic 1: Mathematical Programming and Optimization
- Topic 2: Combinatorial Optimization and Exact Algorithms
- Topic 3: Metaheuristics, Evolutionary Computation, and Swarm Optimization
- Topic 4: Multiobjective, Many-objective, and Multitask Optimization
- Topic 5: Robust, Stochastic, and Dynamic Optimization
- Topic 6: Learning-Augmented and Data-Driven Optimization
- Topic 7: Vehicle Routing and Transportation Optimization
- Topic 8: Scheduling, Timetabling, and Resource Allocation
- Topic 9: Logistics, Supply Chain, Production, and Service Operations
- Topic 10: Optimization for Smart Manufacturing, Smart Cities, and Disaster Response

Organized by:

Technical Supported by:
